Have you ever had an application denied by an adoption facility? Y N

Have you ever been convicted or accused of animal cruelty? Y N

I certify that the above is true and correct. Any false information may result in the nullification of this adoption. I have done the necessary planning and budgeting in order to make this new addition to my household a welcome member of my family. I understand that all animals adopted from animal shelters in Virginia must be spayed or neutered before adoption. I further give the SPCA permission to check my veterinarian records to confirm the above information.

An adoption questionnaire is the first step in your commitment to a new animal. However, even after the application has been approved, the SPCA reserves the right to nullify the adoption at any time. If an animal must stay in the shelter to need adoption requirements, he/she must be picked up within a stated period after spay/neuter. The SPCA cannot hold an animal indefinitely once he/she has been altered, or if there is a lack of contact with the adoptive family.

As part of your commitment to your adoption, we expect a family to contact us at least every 7 days regarding the well-being and status of their pending adoptive animal. We encourage families to visit the animal to help establish a bond. If an adoptive family has not contacted the SPCA within 10 days of the date of the application, the SPCA will consider the adoption nullified and the adoption fee will be processed as a donation. At this point the animal will be placed for adoption again.

Contact with the family will be documented on the adoption questionnaire throughout the process. By signing the adoption questionnaire, you are agreeing to this commitment.
